

Lake Edgewood Conservancy District

2021 Lake Weed Treatment Schedule

Please see the dates below for lake weed treatment by PondsRX. Note the first date is on a Monday and the remaining dates are on Tuesdays. In case of rain on a scheduled date, treatment will occur on the next day. Please be aware of the yellow flags which will be posted on the dam, beach, and Birdhouse Cove on lake treatment dates. As per normal, there is to be no use of the lake on treatment days. This includes no swimming, boating (powered or electric), or kayaking. Also, we strongly recommend you do not water your lawn with lake water on treatment days. If you have any questions or concerns, please contact your Area Director.
